

# Join the Cape Town Talent Exchange

**Be part of a conscious community, that trades its talents and skills on a secure online platform using moneyless methods of Exchange.**

The Cape Town Talent Exchange (CTTE) is part of the Community Exchange System (CES) network. It was the first exchange in the network and started operating in February 2003. It was conceived by a group of monetary activists in Cape Town, who were interested in experimenting with non-monetary modes of exchange. Since then it has grown steadily and is now one of the largest alternative exchange communities in the world.

The Community Exchange System is a community of over a thousand exchanges in more than a hundred countries. It offers an alternative 'economy' that runs complementary and parallel to the mainstream one. The Community Exchange System provides a vital support network and serves as a safety-net in a collapsing economy. To find out more about the CES, go to [www.community-exchange.org](http://www.community-exchange.org)

Since the spread of Covid-19, the subsequent lockdowns and a loss of income for many, more and more people are feeling the economic strain and are disappointed by the current economic system which is failing them. The Cape Town Talent Exchange offers a solution.

**Sign up to be part of the CTTE Community - [www.ctte.org.za](http://www.ctte.org.za)**

**The spirit of Ubuntu is rising, its in our hands (I am because You are)**
